

QUALITY IMPROVEMENT AND QUALITY ASSURANCE MEMO

December 2, 2019

No. 19-05

The BHS Quality Improvement and Quality Assurance Unit will provide regular updates on Department of Health Care Service (DHCS) Behavioral Health Information Notices posted to the Letters, Bulletins and Notices section of the DHCS website. The direct link to the DHCS Information Notices website is also available at <https://cchealth.org/bhs/qiqa>.

DHCS posts information notices that often convey information and, or interpret policy and procedural changes at the State and Federal levels. The information notices provide instruction to providers of Specialty Mental Health Services and, or Substance Use Disorder Services about changes in Federal or State law and Regulation that affect the way in which they operate, or deliver services to Medi-Cal beneficiaries. The DHCS information notices that will be shared and disseminated by the BHS Quality Improvement and Quality Assurance unit are distinct from those of the Managed Care Plan. Managed Care Plan information notices can also be found on the DHCS website.

Below are the latest information notices to post to the DHCS info notice website (<https://www.dhcs.ca.gov/formsandpubs/Pages/2019-BH-Information-Notices.aspx>):

Instructions: The No. Issued column includes direct PDF hyperlinks to the information notices. If relevant there are also direct hyperlinks to enclosures for your convenience. Please read the information notices carefully if relevant to you, your staff, and, or providers.

2019 Behavioral Health Information Notices

NOTE: Some links on this page are documents in Adobe Portable Document Format (PDF); unless indicated are smaller than 2 MB. PDF documents require Adobe Reader. If you need to install or upgrade to the latest version, visit [Download Free Readers](#).
